Tajwēd: Tajwēd linguistically means proficiency, doing something well, intonation, modulation, improvement, elocution. As a term, it means proper pronunciation during recitation of the holy Qur'an as well as recitation at a moderate speed. It is also a set of rules for better recitation of the holy Qur'an. This can only be done by pronouncing each letter from its correct articulation point, giving the letters their rights in inherent characteristics, and dues in conditional characteristics.

Purpose of Tajwēd: The Qur'an is the word of Allah. It's every syllable is from Allah. Its recitation must be taken seriously. The purpose of tajwēd is to make a reciter proficient in reciting the Qur'an, observing the correct pronunciation of every letter with the rulings and characteristics which apply to each letter, without any exaggeration or deficiency. And so through this the reciter can recite the Qur'an upon the way of the prophet (s) who received it from Jibreel ~~who~~ who received it from Allah (SWT). There are two types of mistakes in recitation: clear mistakes & unobvious mistakes.

Clear Mistakes: Mistakes in words which are clear and inconspicuous, usually changing the meaning. Mistakes related to correct pronunciation of letters so that letters are not mixed up.

Unobvious (hidden) Mistake: Mistakes which are not to do with perfecting pronunciation and are not obvious, known only by those who have studied tajwēd rules or experts in this field. Ordinary muslims may not know these or perceive these as mistakes.

## Isti-Adhah and Bas-malah:

The meaning of isti-adhah is seeking refuge or protection ~~from~~ with Allah from Satan, the rejected one. Before recitation in tajweed it's called isti-adhah. In the quran Allah (SWT) said, "seeking refuge with Allah from Satan the rejected one, when you want to recite the quran". (Surah an-nahl 1:98).

\* Seeking refuge should be silent in the time reciting the holy quran.

\* In the prayer it will be done silently.

\* It will be done loud in the time of reciting quran aloud.

Bas-malah means reciting quran "Bismillah". In 'tajweed', before reciting the holy quran reciting the name of Allah is called

'Bas-malah'. It is also called 'Tas-miah'. Full sentence of 'Bas-malah' is, "Bismillahirrahmanirrahim".

Tarteel: is an arabic word means 'recitation', "in <sup>proper</sup> order" and with no haste." As Allah (SWT) said, "and recite the quran in slow, measured rhythmic tones." (Al-Muzzammil VI:4)

Here, slow measured rhythmic tone is tarteel. This is the proper recitation of the quran in the manner that Jibreel (A) revealed it to Muhammad (PBUH).

Tarteel requires delivering words according to their Makharrij, Pronouncing them clearly and slowly and reciting the sentence with understanding.

Tadabbur means pondering over the meanings of the verses of the quran, and contemplating them. Tadabbur means the utmost understanding of the meaning of the words of Allah by reading the tafseer, deep thinking and consideration over the meanings of the verse, following its guidance completely, so tadabbur is:

\* Good and correct recitation of the Quran.

\* Correct understanding of the meaning of the words and verses.

\* Then last by following it.

Allah (SWT) said, "Do they not think deeply in the Quran, or are their hearts locked up (from understanding)?"

(Surah Muhammad v: 24).
